

Features:

- ► JBL Premium Transducers
- ▶ 1000 W highly efficient Class-D amplification
- Maximum SPL Output: 134dB
- System Type: Self powered 18" Subwoofer
- ▶ Frequency Range (-10dB): 31Hz 150Hz
- ▶ Frequency Response (- 3dB): 42.5Hz 150Hz
- Bluetooth Control
 - 3 Parametric EQs + Hi & Lo Shelf
 - Gain and Delay
 - Save and Recall settings
 - Polarity Inversion
- ▶ JBL Engineered Crossover Presets
 - 80 Hz
 - 100 Hz
 - 120 Hz
 - EON
- ▶ M20 Pole Cup
- ▶ Rugged, stage-ready Duraflex enclosure

Applications:

- The EON618S is a powered portable PA subwoofer in the EON600 series from JBL Professional. It has been designed to deliver class leading performance in a variety of applications supporting EON600 and other full range systems. A lightweight, highly useful enclosure allows the speaker to be easily transported and set up wherever low frequency reinforcement is needed.
- The EON618S enclosure has been designed to maximize cabinet volume while maintaing a highly transportable footprint. This has lead to extraordinary Low Frequency production, making the EON618S the loudest, lowest, cleanest subwoofer in its class
- Selectable crossover presets are available through the EON Connect app. By default, the EON618S uses the "EON" tuning, which is a 100 Hz crossover that has been specifically tuned to compliment the full range EON600 speakers. Generic 80Hz, 100Hz, and 120Hz tunings are also available for use with other full range systems.
- Bluetooth control over DSP Parameters, presets, and master volume allows users to control up to 4 speakers at one time with iOS and android devices. Polarity inversion, 3 PEQs, and a Hi- and Lo-shelf are built into the speaker and accessible via the EON Connect app.
